Product Modification Note , from today's date we have done the following modification:

Codes subject to the modification

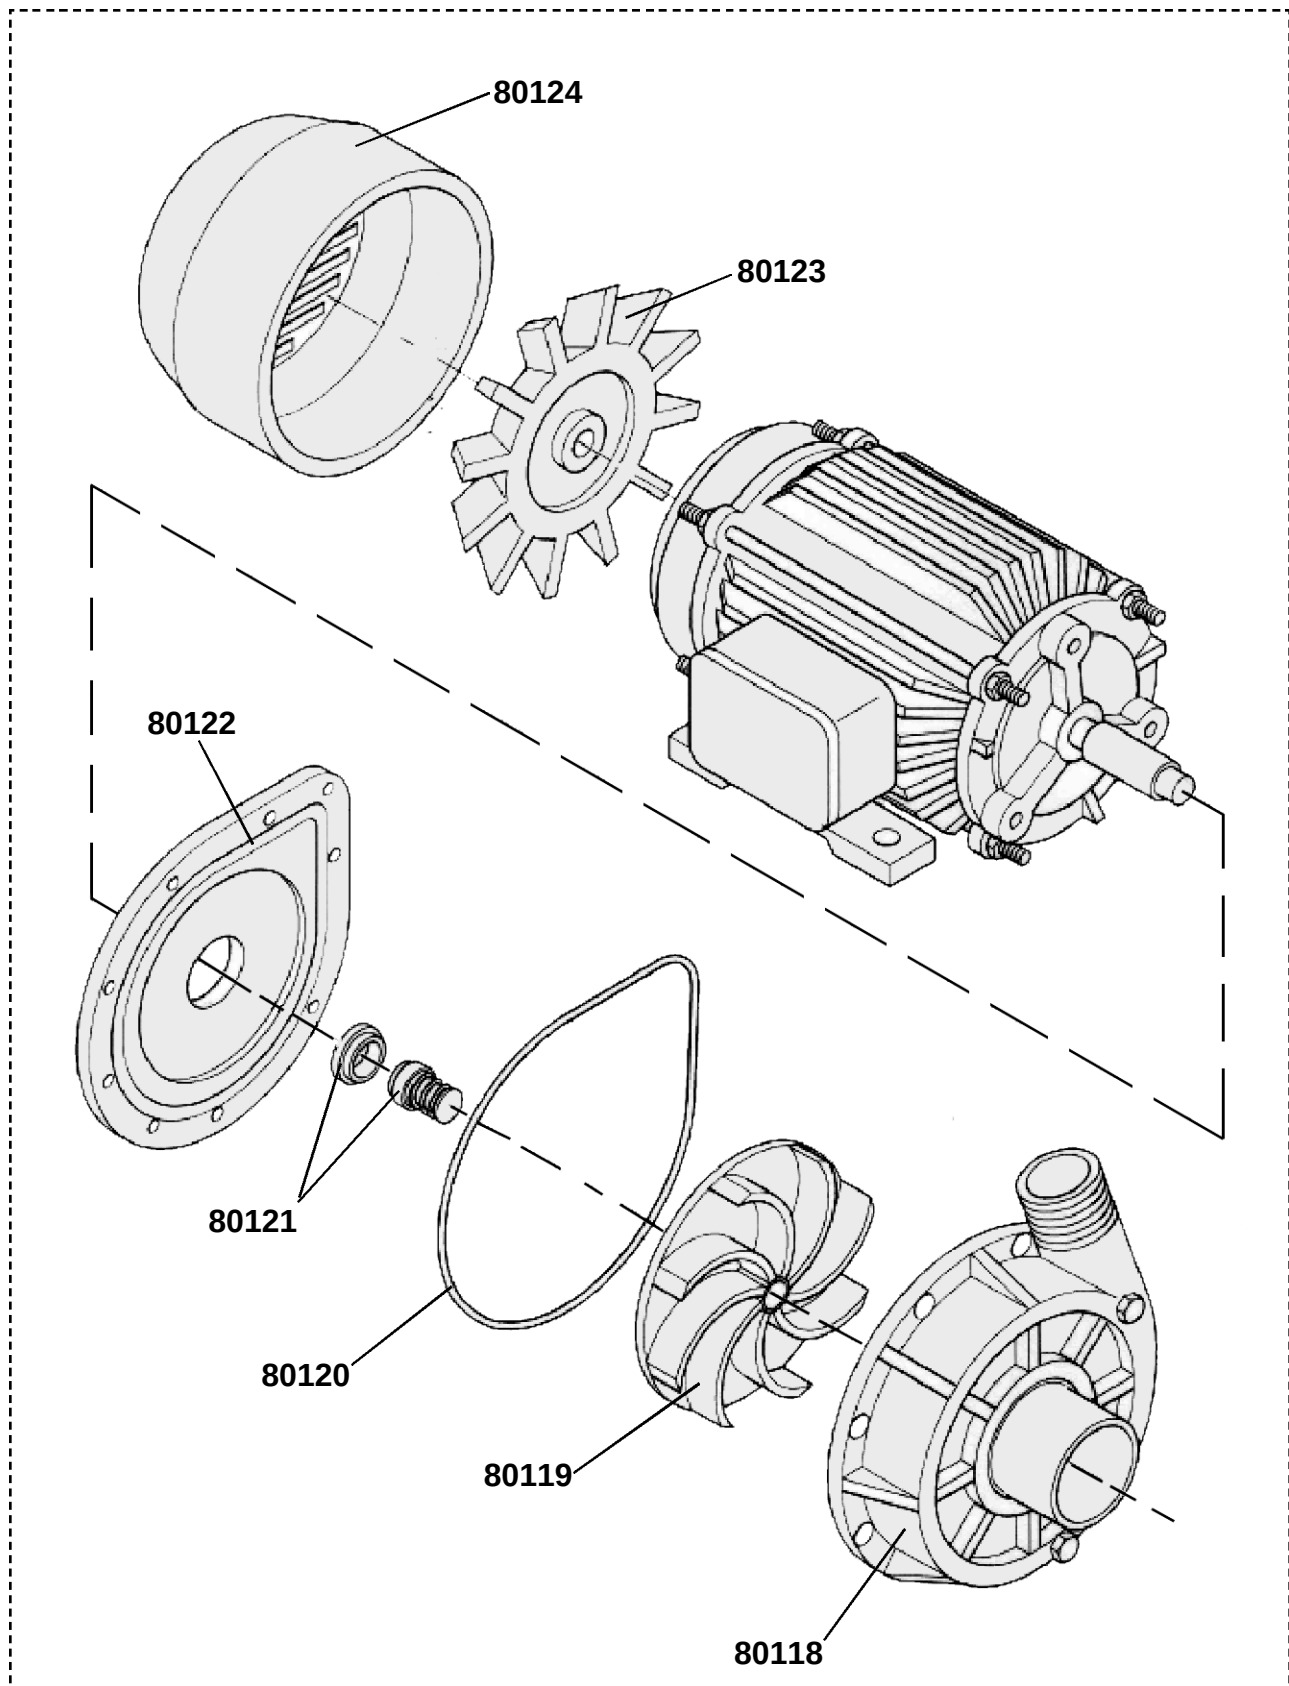

RV82HUK (hobart u.k.)

Modification 's Description

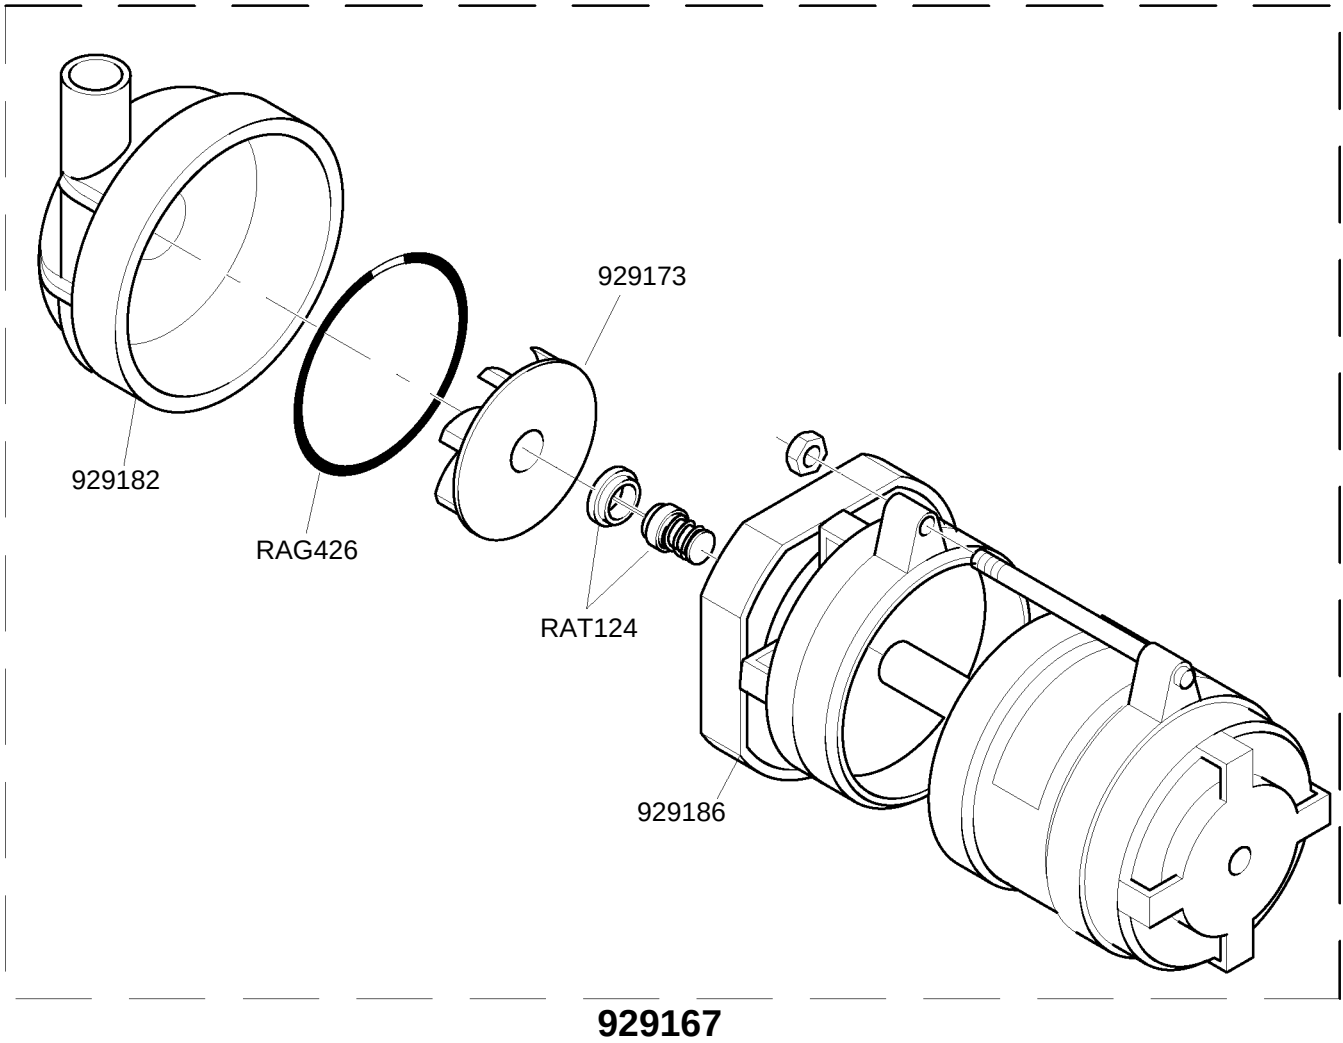

For all hood type models ,
We have exchanged the current pump cod. **139321-472 built by LGB** , with the wash pump
Code 80115 built by FIR.

The two wash pumps are completely interchangeable as a whole part , but
the single internal components will be different , so we have attached the new
spare part catalogue page for the **FIR wash pump code 80115.**
